EXPERIENCE

Full Stack Development Intern at Aztech Technology and Engineers Pvt. Ltd.

Duration - 3 Months

- Mastered the use of HTML and CSS to create visually appealing and responsive web designs. Learned advanced JavaScript techniques to enhance website interactivity and user experience.
- Acquired practical skills in using XAMPP to set up a local development environment, facilitating efficient development, testing, and maintenance of web applications.
- Enhanced my understanding of relational database management systems through direct experience with MySQL, improving my ability to design efficient schemas and write optimized queries.
- Developed critical problem-solving skills by addressing and resolving bugs and performance issues, ensuring that web applications operate smoothly and efficiently.

Wordpress Web Developer Intern at Tecsource Pvt. Ltd.

Duration - 3 Months

- Created and managed 10+ WordPress sites, focusing on custom theme development and plugin integration to meet client specifications and deadlines.
- Employed tools such as Elementor, Adobe Photoshop, and Google Analytics to design appealing layouts and track site traffic and user behavior.
- Played a key role in the redesign of an e-commerce site, which resulted in a 20-30 Percentage increase in conversion rates after launch.
- Provided technical support for WordPress-specific issues, including PHP debugging and resolving plugin conflicts, which reduced downtime by 15Percent.

PROJECTS

Easy Tour and Travels | Html, Css, Js, mySql, Xmapp

2024

- Developed a web-based travel management system using HTML, CSS, JavaScript, PHP, and MySQL, streamlining booking processes and enhancing real-time user interactions.
- Enhanced user interface and experience, facilitating efficient navigation and interaction across booking and inquiry operations, boosting client satisfaction.
- Optimized administrative operations through an admin portal, significantly improving the management of travel packages and user bookings.

Eduford - College website | HTML, CSS, JavaScript

2022-23

- Developed a comprehensive college information website using **HTML, CSS, and JavaScript**, enhancing the online presence and accessibility of college-related details for prospective students and parents.
- Implemented user-friendly interfaces to display extensive details such as academic programs, admissions procedures, and fee structures, ensuring information is easily accessible and navigable.
- Utilized JavaScript for dynamic content updates and interactive features, improving user engagement and providing real-time updates on college events and news.
